

125S 250x250 Exhaust vent

Usage: Exhaust vent for a flat surface.

Dimensions: Duct size Ø 125 mm, installation set 250 x 250 mm. The installation area must be at least the same size.

Contents: Exhaust vent, installation set, adapter and screws.

The S-series roof fans and exhaust vents are designed to be installed in the ventilation shaft, onto a silencer or in or other horizontal surface. Thus, they are also suitable for gently sloping roofs. The S-roof fans and S-exhaust vents are used, for example, in blocks of flats and terraced houses, when flat-specific ventilation is required. The S-series roof fan can also be used for modifying an old natural ventilation system into a mechanical one during renovation.

Color	Black
